Bringing your garden to life with quality Irish products!

WHO WE ARE

Established in 1991, in Co Tipperary, Ireland. Tippland Horticulture is an independently owned and run Irish company who specialise in the manufacturing of Growing Media Products.

WHAT WE DO

Tippland Horticulture manufacture, package and distribute a range of professional and retail composts along with peat, bark, soil improvers, garden fertiliser and wild bird care products to retailers and professional growers across Ireland and the UK.

WHY STOCK TIPPLAND?

- Premium quality products and service
- Competitively priced
- Tried and tested products
- Reliable trading partner
- 100% Guaranteed Irish products
- Unique range of products
- Technical back up
- Marketing support - 3D visuals and Point of Sale
- Over 34 years experience supplying the horticultural industry.

SERVICE AND SUPPLY

We monitor and control the entire manufacturing process from harvesting composting processing bagging through to storage and distribution.

At Tippland we harvest, manufacture, package and distribute all of our composts from our factory in Tipperary, which allows us to remain in full control of our products from start to finish. This enables us to guarantee our customers consistently high quality products and services time and time again.

The company has over 34 years experience supplying retailers and professional growers and has built its reputation on the reliable supply of consistently high quality products and ongoing customer support.

ENVIRONMENT

At Tippland our goal is to work towards a greener future. We are continuously practising new cultural and biological methods minimising usage of chemicals providing you with a natural product that is environmentally friendly.

A policy of constant investment in research and technology has enabled Tippland to introduce a new range of peat free and peat reduced growing media. The creation and addition of peat free alternatives such as coir, green compost, wood fibre and bark to our growing media is the first step in our commitment to supply a range of peat reduced and peat free products. We have a strict policy of extracting peat responsibly and in an environmentally acceptable manner. All peat is sourced from non SSSI sites which are ethically and environmentally managed to support regrowth.

GROWING MEDIA SALES INDICATOR

This graph indicates the selling periods throughout the year.

Green light text - selling period
White bold text - Peak selling period

Example: The green, lighter text on this graph indicates that this particular product is sold all year round. The white, bold text on this graph indicates the peak selling period or this product is between the months of February and July.

JOHN INNES NO.3 MATURE PLANT COMPOST

This Peat free compost is based on the traditional recipe that was first developed over 50 years ago by the John Innes Foundation for re-potting and planting mature plants into large container and pots.

Tippland John Innes No.3 is a nutrient rich peat free compost that is made from a recipe of loam, eco-compost, horticultural grit and John Innes Fertiliser.

Why use John Innes No. 3?

- Loam - improves nutrient and water retention which supports plant health.
- Horticultural grit - improves drainage.
- Biochar - improves aeration for stronger healthier root development.
- Eco compost - environmentally friendly peat free alternative.
- 12 Week slow release feed - full of essential nutrients and trace elements for hungry plants.

NEW

Benefits of Biochar

- Carbon rich medium
- Captures and sequesters carbon
- Improves drainage and aeration
- Improves water retention
- Supports microbial life

Specialist

ROSE TREE AND SHRUB

Tippland Rose, Tree and Shrubs compost is a specially formulated compost for Roses, Trees and Shrubs. Rose Tree and Shrub compost is enriched with a professional grade slow release fertiliser that contains the correct nutrient balance and open texture to encourage strong root development and support plant growth.

Slow release fertilisers are an excellent alternative to soluble fertilisers the nutrients are released at a slower rate throughout the season. Therefore leaching is avoided as the plants are able to absorb the nutrients as required.

- Contains a slow release fertiliser.
- Feeds up to 8 months.
- Ideal for potting on, planting out and filling containers.

Sunflower Hearts

Sunflower hearts (the husked kernels) are a popular no-mess food. They are great for attracting a wide variety of birds into your garden such as Tits and Greenfinches.

Nyjer Seed

These are small and black with high oil content. They need a special type of seed feeder, and are particular favourites with goldfinches and siskins.

Black Sunflower Seed

These are an excellent year-round food, and in many areas are even more popular than peanuts. The oil content is higher in black than striped ones, and so they are much better.

TERMS OF TRADING

It is a condition of Tippland Horticulture Ltd that all business transacted is subject to our terms of trading.

1. Prices

Goods will be invoiced at the price ruling on day of dispatch. Payment terms are strictly 30 days net, unless prior to agreement. All prices quoted are in euro unless otherwise stated and are exclusive of carriage. Prices are subject to change with out prior notice.

2. V.A.T

Vat will be charged at the prevailing rate.

3. Retention of Title

Until payment in full has been made to Tipperary Garden Peat Ltd., all goods invoiced shall remain the property of Tipperary Garden Peat Ltd., but the risk therein shall pass to the purchaser on delivery and any liability to third parties arising in respect thereof after the delivery shall be for the purchaser account Tipperary Garden Peat Ltd., shall be entitled to repossess the goods or the proceeds of sale in the purchaser hands or the hands of any liquidator or receiver.

4. Carriage

Orders are accepted subject to supplies being available and whilst we do our utmost to en-sure delivery, no guarantee can be given that goods will be delivered at the time requested.

5. Claims

The contract shall be deemed to have been duly performed and the goods accepted unless a written claim is received within 7 days of delivery. Goods subject to claim must be stored free of charge for our inspection.

6. Returns

Drivers are not authorised to accept the return of goods. Goods are not allowed for return with-out written authorisation. If goods are accepted for return they should be accompanied by original invoice number and are subject to a re-stocking charge of 10%.

7. Collection

To avoid delays, orders should be placed one day in advance of collection.

8. Hours of Business

Monday to Friday 9.30am-5.00pm.
